

Corporate TV and Training Video Solutions

Legend:

- 1 Stream SD and HD cable and satellite TV channels to PCs and TVs throughout your corporate headquarters and regional offices.
- 2 Encode and distribute locally produced live content in high quality h.264, from executive announcements through company meetings and events to live training, to every employee around the office. Enhance your work processes by recording live events for future reference.
- 3 Make all of your archival training footage available anywhere and at any time on-demand and at scheduled intervals.
- 4 Share all of your video content between your corporate headquarters and every regional office over a dedicated IP connection or the Internet.

Notes:
